Interest Evidence (RIASEC Profile)

The interest profile summarises the learner's responses across the six RIASEC career-interest dimensions. Higher percentages indicate stronger relative interest alignment within this assessment.

Dimension	Score	Profile	Level
Realistic (R)	33.3%	■■■■■■■	Lower
Investigative (I)	83.3%	■■■■■■■■■■■■■■■■■■■■	Strong
Artistic (A)	58.3%	■■■■■■■■■■■■■	Moderate
Social (S)	91.7%	■■■■■■■■■■■■■■■■■■■■	Strong
Enterprising (E)	66.7%	■■■■■■■■■■■■■	Moderate
Conventional (C)	58.3%	■■■■■■■■■■■■■	Moderate

Strongest interest dimensions: Social (91.7%), Investigative (83.3%), Enterprising (66.7%). These dimensions provide important evidence for the career-field recommendations that follow. They should be interpreted together with academic evidence and work preferences rather than as a stand-alone career prescription.
